2020 was an extraordinary year like no other. Due to the significant changes from the COVID-19 pandemic, there are numerous tax issues to be aware of this year. For example, many individuals received support in a variety of forms from various levels of government. Others may have changed how they carried on their employment duties or business operations, including working from home or using their vehicle for employment or business reasons. 6. Details related to your **workspace in home**.

Due to the COVID-19 pandemic, many employees were required to work from home during a portion of 2020. In some cases, a deduction against employment income may be available.

For workspace in home expenses to be deductible, the employee must have a T2200 form from their employer which certifies that the employee was required to incur expenses in the course of their employment. In addition, one of the following has to be met:

- The home was where the employee mainly (more than 50% of the time) did their work; or
- The employee used the space exclusively to earn employment income, and used it on a regular and ongoing basis for meeting clients, customers, or other people in the course of performing employment duties.

If either of the above tests are met, even for a portion of the year, a reasonable claim can be made. To make a claim, please provide a signed and completed T2200 from your employer; details on the portion of your home that was used as a workspace (e.g. approx. square footage of workspace versus other space); period of time that you worked from home and met one of the above test; expenses incurred that related to the work space; and whether any of the expenses were reimbursed. Also, include details on any allowances or rent payments received from the employer.

As an alternative, the government has announced that CRA will allow employees working from home in 2020 due to COVID-19 with modest expenses to claim up to \$400, based on the amount of time working from home, without the need to track detailed expenses. They will generally not request that people provide a signed form from their employers.

- a) moving expenses (please advise us if you have, or may have, immigrated or emigrated to/from Canada),
- b) childcare expenses (if the services are provided by an individual, their SIN should be on the receipt),
